Dixie Fire update. The fire spotted outside of retardant lines around 2230 this evening and is now about 15 acres in size burning moderately up slope toward the U Line. The fire is very visible on the Flea Mtn and Concow cameras. The fire is burning away from Bucks Creek 1101 and T lines in the canyon, but it is burning toward the Caribou Table 230 kV but is about 1.5 miles away along ridge top. It's roughly 4 and 7 miles respectively away from Cresta 1101 and Big Bend 1101. PSS [redacted] I'd engaged and w...
